ABOUT ME

I am a code enthusiast. Coding is my passion and life. I started my career as an English language teacher and took up coding seriously when I happened to create a blog to interact with my students. All I need is a career move to succeed in an environment of growth and excellence and earn a job which provides me job satisfaction and self-development achieving my personal as well as organizational goals. I believe learning never ends so I am always keen on updating myself with different programming languages.

EXPERIENCE

SELF-TAUGHT

Male', Maldives : 2016 - present

I am a self-taught developer. I have been teaching myself different programming languages since 2016. I have experience in creating numerous demo-projects which are part of the courses I took over at Code Academy, Free Code Camp, Code School, Udemy, Zenva, Solo Learn etc. I also learnt digital marketing (SEO, Email etc.) and graphic designing concepts (Wireframes, typography etc.) which are inevitable components of web development as client satisfaction is considered to be the highest goal. During my learning period I obtained many skills which are I believe are in high demand for web developers.

Accomplishments:

- Created responsive landing pages and complete websites
- Optimized websites according to SEO concepts and Semantics.
- Created WordPress templates using HTML, CSS and Bootstrap
- Created emails in HTML
- Gave websites functionality using JavaScript and jQuery
- Committed projects to GitHub
- Converted Photoshop sites to HTML and CSS
- Manipulated the commandline
- Converted WordPress websites into Android apps
- Handled Chrome developer tools in debugging websites

TEFL TEACHER

Male', Maldives : 2014 - present

I have been teaching English as a foreign language in Male' for the last couple of years. I am responsible for training several groups of students sitting for professional exams like IELTS, TOEFL etc.

Accomplishments:

- Result-oriented training
- Achieved goals before deadlines
- Cross-cultural communication
- Manipulated technology in teaching learning process
